COUNTRY Germany/Russian Zone

DATE

25X1A

SUBJECT Buna-Werke, Schkopau

INFO

DIST. 17 March 1947

PAGES 2

SUPPLEMENT

25X1A

ORIGIN

25X1X

1. The Buna-Werke suffered very little damage during the war. The Russians repaired all buildings and rebuilt the destroyed ones. Among the latter was Building #56 for the production of Phenolphthalein. (Phenolphthalein?)
2. The Russians removed from the plant almost all mixing kettles, drying cabinets, distillation equipment (from B-30), and some electrolysis equipment (from H-56).
3. The following leading personalities were deported in October 1946:
  - Dr. Stauffer, expert for the Styrol-Polymerization process
  - Dr. Fischer, (field unknown)
  - Dr. Wenning, carbide expert

(Dr. Wenning is said to have escaped and to be living in the U. S. Sector of Berlin.)
4. The Russian head of the Buna-Werke is Director General Makowitsch. The Germans in charge are:
  - Dr. von Leiwitz, production manager
  - Dr. Nellis, technical director
  - Dr. Schumacher, business and sales manager
5. Total number of workers is 13,900; work is done on day and night shifts.
6. Production (no figures were given)

Buna, rolled in strips, 3-5mm thick  
 Igelit (plastic) in all varieties  
 Automobile tires, average production 250 (probably per day)  
 Formaldehyde (for war use and the lacquer industry)  
 Chlorhydric acid  
 Caustic soda solution  
 "Tetrahydroferan"  
 Trichlorethylene  
 Chlorine

Document No. 605
